

## **FDA Warns Web Sites Against Marketing Fraudulent H1N1 Flu Virus Claims**

The U.S. Food And Drug Administration (FDA) is enforcing the laws that protect consumers from illegal products marketed through the Internet that claim to diagnose, prevent, mitigate, treat or cure the 2009 H1N1 flu virus. On May 1, 2009, the FDA warned consumers regarding products related to the 2009 H1N1 flu virus offered on the Internet. The products involved are those that are promoted and marketed to diagnose, mitigate, prevent, treat, or cure the 2009 H1N1 flu virus but are not approved, cleared, or authorized by the FDA. Please visit the FDA's website at <http://www.fda.gov> for more information
