

## Great American Cleanup at Munyon Island in Lake Worth Lagoon – April 18, 2009

Nearly 100 volunteers converged on Munyon Island in an effort to help clean up a portion of Lake Worth Lagoon as part of the Great American Cleanup sponsored by Keep Palm Beach County Beautiful. The Munyon Island/Lakeside Park site was coordinated by Palm Beach County's Department of Environmental Resources Management and LagoonKeepers.org. Thanks to the dedicated volunteers, including individuals, private boaters and groups, approximately 1,000 pounds of trash and recycled materials were removed from the shoreline. Additional thanks go to the Riviera Beach Maritime Academy, the Village of North Palm Beach, MacArthur Beach State Park, and the Florida Department of Environmental Protection for their support.

**Thank you Volunteers!**

The most unusual item found:  
an entire Port-o-let door &  
door frame!
