Re: Audit Report 2018-A-0002

Dear Ms. Baker:

As part of our annual audit planning process for FY 2017, we identified risk areas in which the Office of Inspector General (OIG) could make a positive impact. The Palm Beach County Facilities Development and Operations Department (FDO) was selected for an audit of Contracts and Vendors to determine:

1. If the department had appropriate policies and procedures,
2. Whether the department properly documented and approved their invoices and purchases, and
3. Whether the department effectively managed vendor contracts.

The OIG carried the audit forward as part of our FY 2018 Annual Audit Plan. Based on our initial review of relevant information related to this audit, we have reached the following conclusion:

- We believe that the controls surrounding the FDO processes appear to be generally adequate.

Additionally, we noted the following:

1. The County Internal Audit Department issued an audit report in FY 2018 pertaining to the capital process, including the invoice payment process, which provided valuable recommendations to FDO. Implementation of these recommendations will enhance and strengthen these controls. While these recommendations were specifically provided to strengthen the capital process, they could be applied to all invoice payment processes to further reduce risk.
2. The County Internal Audit Department has an audit planned in FY 2018 for FDO Property and Real Estate Management.

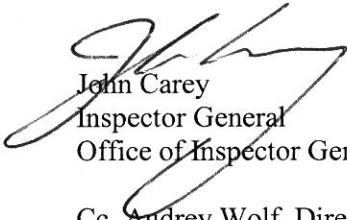

Based on our initial review, and to avoid duplication of efforts with the County's Internal Audit Department, we are closing the audit. During the audit exit meeting on January 4, 2018, suggestions<sup>1</sup> were provided to the FDO Director for management's consideration to improve the contract review and compliance processes. Since there are no formal findings or recommendations in this report, no County response or further actions are required.
